

second cousin.

SENATOR R. LEWIS: I will claim him.

SENATOR F. LEWIS: Sure, you need a vote now. Senator Lewis, now as I understand this process, we are talking about general fund money now out of that State Building Program, is that right?

SENATOR R. LEWIS: I am not sure where these monies will come from. They will come from the general fund, you are right.

SENATOR F. LEWIS: Well, do we have an A bill up on this yet or do you plan to follow with an A bill, is that the procedure?

SENATOR R. LEWIS: Yes.

SENATOR F. LEWIS: Then last, just one curious bit of information which would have no effect on me in terms of any other projects, but did you happen to support that little park project up there that Senator Koch and Senator Newell were talking about at the other end of the state?

SENATOR R. LEWIS: Would you tell me exactly what one you are talking about?

SENATOR F. LEWIS: What is the name of that, Longman Lake, that is the one.

SENATOR R. LEWIS: Kings Lake.

SENATOR F. LEWIS: That was just a matter of personal concern. You can tell me that later.

PRESIDENT: Senator Jack Mills.

SENATOR MILLS: Well, I have to, just for the record, ask Senator Lewis why he is excluding Swanson Reservoir from the District which I represent and they, too, have areas. Senator Lewis, that need to be fixed up. I would like to know why you want to take them out.

SENATOR R. LEWIS: Well, I guess that is a legitimate question, Senator Mills. The reason that I did not include them this year and added "Strunk Lake" instead was that last year the boat ramps and a good bit of the improvements were focused on Swanson Lake last year and there was very definitely a need there and that part of, at least, that need has been recognized in the last year's appropriation.

SENATOR MILLS: I know the goodness of Senator Lewis and I understand what he is trying to do and I appreciate it, but then you always look, but, and this is what I saw, but, Senator Lewis, I would like to see Swanson Reservoir, Trenton, those people who have begged and pleaded with the Game and Parks to do something at that reservoir, when at many times of the year there is even not one place, not one facility, for unloading a boat ramp, so I would like to move, Mr. Chairman, Mr. President, Mr. Clerk, I would like to move to reinstate Swanson Lake or Swanson Reservoir, that language.
